

# Journal of the Japanese Society for Artificial Intelligence

Vol. 20 No. 5 (Sept. 2005)

## CONTENTS

### Special Issue: " Skill Science "

Editor's Introduction to " Skill Science "	Chie Morita	509
AI and Skill Science	Koichi Furukawa and Ken Ueno	510
Development and Evolution of Dexterity in Person and Organization	Tsutomu Fujinami	518
Metacognitive Verbalization as a Tool for Acquiring Embodied Expertise	Masaki Suwa	525
Skill Learning Support and a Framework for the Learning Support Environment		
.....Masato Soga, Hirokazu Taki, Noriyuki Matsuda, Saeko Takagi and Fujiichi Yoshimoto		533
Investigating Skillful Motions and Its Knacks of Excellent Athletes	Michiyoshi Ae	541

### Special Issue: " Digital Human for Everyday Life "

Editors' Introduction to " Digital Human for Everyday Life "		
.....Yutaka Matsuo, Yoichi Motomura and Yoshifumi Nishida		549
Human, the Weakest Link	Takeo Kanade and Toshihiro Matsui	550
Research Area of Digital Human Contents		
Computer Representation and Its Application Technology of Human and Machine Behavior Data Base		
.....Tomomasa Sato, Taketoshi Mori and Tatsuya Harada		557
Technology for Supporting Human Motion		
Development of a Muscle Suit	Hiroshi Kobayashi	564
The Technologies for the Safety Driving Support		
.....Hiroaki Tanaka, Harutsugu Fukumoto, Takafumi Ito and Takahiro Naito		572
Human Daily Life Support at a Ubiquitous Computing Home	Michihiko Minoh	579
Behavior Understanding for Everyday Support Systems in Daily Environment		
.....Yoichi Motomura and Yoshifumi Nishida		587

### Survey Papers

A Realist Methodology for Constructing Ontology	Daisuke Kachi	595
---	---------------	-----

### Lecture Series: " Brain Science " ( 5 )

Cerebral Mechanism of Speech Production Inferred from Speech Disorders Caused by Brain Damage		
.....Atsushi Yamadori		604

### Technical Papers

Abstract.....		610
---------------	--	-----
