

# Journal of the Japanese Society for Artificial Intelligence

Vol. 21 No. 1 (Jan. 2006)

## CONTENTS

### Special Issue: " Space Development and AI "

Editor's Introduction to " Space Development and AI " .....	Ichiro Harasima	1
Can Artificial Intelligence Contribute to Space Development and Utilization ? .....	Shinichi Nakasuka	2
Expectation to Effective Application of AI Technology to Spacecraft Operations .....	Noriyasu Inaba	14
ISACS-DOC: Automatic Monitoring and Diagnostic System for Scientific Satellite .....	Ryoji Takaki, Masashi Hashimoto, Hideyuki Honda and Akinari Choki	20
A Trouble Identification System by the Qualitative Inference Based on Functional Models Application to Rocket Launch Operational Support System .....	Akio Gofuku, Norikazu Shimada, Seiji Koide and Hideo Takei	26
Telemetry-Mining A Machine Learning Approach to Anomaly Detection and Fault Diagnosis for Space Systems .....	Takehisa Yairi	33
Multiagent-Based Cargo Layout System Taking Initiative of Japan in Next Generation Ground Support Systems .....	Keiki Takadama	39
Human-Machine Systems in Space Development Intelligent Support Technology and Knowledge Management .....	Yoshikiyo Kato	45

### Special Issue: " A New Trend in Researches on Advanced Learning Systems

#### Interaction between Learning Science and Engineering "

Editors' Introduction to " A New Trend in Researches on Advanced Learning Systems Interaction between Learning Science and Engineering " .....	Akihiro Kashihara and Yukihiro Ito	51
Learning Support Systems as Media for Connecting Science and Technology of Learning .....	Kazuhisa Miwa	53
Scaffolding Metacognition in Computer-Based Learning Environment .....	Tsukasa Hirashima	58
The Perspective of Learning Grid and e-Pedagogy .....	Mizue Kayama and Toshio Okamoto	65
Designs and Challenges in Computer-Supported Ubiquitous Learning .....	Hiroaki Ogata and Yoneo Yano	70
Learning Sciences: Integration of Collaborative Practices and the Science of Learning .....	Naomi Miyake	77
Design of Media Education Based on Classroom Practice .....	Tatsuya Horita	85
New Trends in Development and Practice of e-Learning Technology Standardization .....	Kiyoshi Nakabayashi, Yasutaka Shimizu and Tsuneo Yamada	92

### Articles

An Informal Retrospect of the Compilation Process of AI Encyclopedia .....	Riichiro Mizoguchi, Mitsuru Ishizuka, Hozumi Tanaka	99
Message for Young Researchers Ambitious for Significant Contribution in AI Field; From a Lecture by Prof. Marvin Minsky .....	Shinya Kiriya	101

### Commentary Series: " Practical Tips for Evaluation in AI Research: From Planning to Analysis " ( 2 )

Psychological Experiment for Evaluation .....	Asako Miura	102
---	-------------	-----

### Special Issue: " Doctorial Theses on Artificial Intelligence "

New Trends of Researches for Doctorial Theses .....	Hideaki Kikuchi	113
• Learning & Discovery .....		114
• Natural Language Processing .....		114
• Emergent Systems .....		115
• Human Interfaces, Computer Assisted Instruction .....		116
• Pattern Understanding .....		116

### Technical Papers

Abstract.....		118
---------------	--	-----
