

Journal of the Japanese Society for Artificial Intelligence

Vol. 21 No. 2 (March 2006)

CONTENTS

Special Issue: " Conversational Informatics "

Editor's Introduction to " Conversational Informatics "	Toyoaki Nishida	143
Prospective View of Conversational Informatics	Toyoaki Nishida	144
Conversational Agents as User Interfaces for Conveying Conversational Contents	Yukiko Nakano, Toyoaki Nishida and Igor S. Pandzic	150
Environmental Media for Human Conversation	Michihiko Minoh, Noboru Bagaguchi, Rin-ichiro Taniguchi and Koh Kakusho	156
Acquisition and Management of Conversational Content	Toyoaki Nishida, Yuichi Nakamura, Sadao Kurohashi, Yasuyuki Sumi and Hidekazu Kubota	162
Analysis and Modeling of Conversation	Kazuhiro Ueda, Sakiko Yoshikawa, Yasuharu Den, Chika Nagaoka, Yoshimasa Ohmoto and Mika Enomoto	169

Special Issue: " Kansei Communication "

Editor's Introduction to " Kansei Communication "	Hiroko Shoji	176
Kansei Philosophy and Communication	Toshio Kuwako	177
Kansei Robotics: Measurement and Modeling of Kansei from Robotics Aspect	Toshikazu Kato	183
Haiku as a Kansei Communication Media	Masami Suzuki	189

Special Issue: " AI Is Alive in Industrial Applications " (2)

Editor's Introduction to " AI Is Alive in Industrial Applications (2) "	Hiroshi Yamakawa	195
A Special Project by Student Members of Editorial Board		
An Interview with Mr. Hiromu Hayashi	Junichiro Mori, Yoko Nishihara and Kosuke Numa	196
Development of Clusters Through Eyes of an Artificial Intelligence Researcher()		
On Knowledge Exchange Towards Open Innovation	Kazunori Fujimoto	203

In Commemoration of Graduation from CREP

Everyday Language Computing Project (Roundup Report)		
Work on CREP and Trajectory of Everyday Language Computing Project	Ichiro Kobayashi, Michiaki Iwazume, Yusuke Takahashi, Toru Sugimoto, Shino Iwashita, Noriko Ito and Michio Sugeno	210

Articles

Interview In Commemoration of Graduation from CREP	Akinori Abe and Ikuko Eguchi Yairi	218
--	------------------------------------	-----

Commentary Series: " Practical Tips for Evaluation in AI Research: From Planning to Analysis " (3)

Psychological Survey for Evaluation	Asako Miura	225
-------------------------------------	-------------	-----

Lecture Series: " Brain Science " (7)

Studies of Language Comprehension Using Multi-Channel Event-Related Potentials		
A Linguistic Approach	Hiroko Hagiwara	234

Special Issue: " AI Challenge in the Near Future "

Editor's Introduction to " AI Challenge in the Near Future "	Akinori Abe	242
Abstract		243

Technical Papers

Abstract		246
