

Journal of the Japanese Society for Artificial Intelligence

Vol. 24 No. 3 (May 2009)

CONTENTS

Special Issue: "Mind Games"

Editor's Introduction to "Mind Games"	Hitoshi Matsubara	333
Computer Shogi	Takenobu Takizawa and Yoshiyuki Kotani	335
Computer Go	Teigo Nakamura	341
RoboCup Soccer Simulation League	Hidehisa Akiyama	349
Analysis of Mah-Jong Using PAI-FU (Record of Games of Mah-Jong)	Totsugeki Tohoku and Takeshi Ito	355
Computer DAIHINMIN	Tetsuro Nishino and Seiya Okubo	361
Recent Topics on Puzzles	Tetsuro Tanaka	367

Special Issue: "AI Applications in Finance"

Editors' Introduction to "AI Applications in Finance"	Takao Terano, Tohgoroh Matsui and Kiyoshi Izumi	373
Evidence-Based Execution Realized by Algorithmic Trading	Takahiro Tanaka	376
Kaburobo Platform Application for Agent-Based Trading System — Challenge for Sophisticated Automated Trading System —	Tomoyasu Oya, Shinichiro Nakayama and Fujio Toriumi	385
Bridging Between Financial Theory to Financial Markets Through Agent-Based Simulation	Hiroshi Takahashi and Takao Terano	392
Acquiring and Analyzing Trading Strategy in Financial Market Using Reinforcement Learning	Tohgoroh Matsui and Takashi Goto	400
Financial Market Meets Artificial Market	Kiyoshi Izumi, Fujio Toriumi and Hiroki Matsui	408

Survey Papers

The Post Internet Protocol Network — Development of the New Global Network from Clean Slate —	Ikuko Eguchi Yairi, Hiroaki Harai and Masayuki Murata	416
---	---	-----

Lecture Series: "Knowledge Based Software Engineering" (1)

Editor's Introduction to "Knowledge Based Software Engineering"	Takahira Yamagichi	424
Trend Report on Ontology Related Specifications at OMG	Masao Okabe and Hajime Horiuchi	426

CREP

CREP Discussion — Design Re-Use Technologies for Content Production and the Evaluative Studies —	Haruhiro Katayose, Keiji Hirata, Kazunori Miyata, Toshinobu Harada, Toyoaki Nishida, Masaki Suwa and Akinori Abe	434
