

# Journal of the Japanese Society for Artificial Intelligence

Vol. 25 No. 6 (Nov. 2010)

## CONTENTS

### Special Issue: "Analysis of Very Large Scale Image Collections"

Editors' Introduction to "Analysis of Very Large Scale Image Collections"	Rin-ichiro Taniguchi and Toshikazu Wada	751
SIFT and Recent Approaches in Image Local Features	Hironobu Fujiyoshi	753
Advances and Prospect of Nearest Neighbor Search in High Dimensional Space	Toshikazu Wada	761
Specific Object Recognition by Image Matching Using Local Features	Koichi Kise	769
Recent Trends in Content-Based Video Copy Detection in the Era of Large Amounts of Video	Shin'ichi Satoh	777
Automatic Image Annotation Based on Large Scale Image Dataset	Tatsuya Harada	785

### Special Issue: "Advanced Methodologies for Bayesian Networks"

Editor's Introduction to "Advanced Methodologies for Bayesian Networks"	Maomi Ueno	794
Bayesian Networks and Discrete Structure Manipulation System	Taisuke Sato and Shin-ichi Minato	796
Statistical Learning for Bayesian Networks	Maomi Ueno	803
Causal Discovery in Bayesian Networks	Takashi Isozaki	811
Graphical Identification Conditions for Causal Effects Using Linear Structural Equation Models	Manabu Kuroki and Hei Chan	819
Algebraic Geometry in Bayesian Networks	Joe Suzuki	826
Large-Scale Data Based Modeling of Everyday Life and Their Applications for Real World Problems	Yoichi Motomura	834

### Survey Papers

Social Media in Evolution of Organization and Community	Hirohiko Suwa and Toshizumi Ohta	841
HAI Study Case		
— Cultural Dependency in Agent Facial Expression Design and Recognition —	Tomoko Koda	850

### Lecture Series: "Educational Programs with Service Innovation and Artificial Intelligence" (4)

Education for Service Innovators Based on Information Science and Knowledge Science	Michitaka Kosaka and Yasuo Ikawa	858
---	----------------------------------	-----

### Special Issue: "Human-Agent Interaction"

Editors' Introduction to "Human-Agent Interaction"	Natsuki Oka and Takanori Komatsu	866
--	----------------------------------	-----

### Technical Papers

Vol. 25 Abstract		868
