8th Pacific Rim International Conference on Artificial Intelligence

Workshop 4:
Language Sense on Computer

9th August 2004
(Monday)

12:00	**Registration**
13:00 | **14:00**	**Lunch Break**
14:00 | **14:55** [Room C	**Workshop 4:** **Language Sense on Computer**
	Session 1: Feature of Language Sense
	Language Sense *Ainori Abe* **Language Sense and Ambiguity in Thai** *Thechai Supnithi, Krit Kosawat and Monthika Boriboon*
14:55 | **15:45** [Room C	**Workshop 4:** **Language Sense on Computer**
	Session 2: Communication and Language Sense
	Can We Encode Emotional Semantic Information in Written Message? --- A Basic Study towards a Development of a New Miscommunication-free *Akihiko Iwahara and Takeshi Hatta* **Is a Face-to-Face Conversation Model Applicable to Chat Conservations?** *Kanako Ogura and Kazushi Nishimoto*
15:45 | **16:00**	**Afternoon Tea Break**
16:05 **17:00** [Room C]	**Workshop 4:** **Language Sense on Computer**
	Session 3: Application of Language Sense
	Coherent Arrangement of Sentences Extracted from Multiple Newspaper Articles *Naoki Okazaki (The University of Tokyo, Japan), Yutaka Matsuo and Mitsuru Ishizuka* **Towards a supporting system for amplifying reflective thinking of program creators** *Miwa Yokoyama, Katsuaki Tanaka, Mina Akaishi and Koichi Hori*
17:00 | **17:45** [Room C]	**Workshop 4:** **Language Sense on Computer**
	Session 4 Application of Language Sense
	Activity Transfer Models for Associative Activities in a Brain *Shinji Karasawa* **Toward Fully Automatic Categorization for Commonsense Processing** *Rafal Rzepka, Toshihiko Itoh and Kenji Araki*
